

SREETAMA SAHA

+91 7588366871 sreetamasaha2417@protonmail.com LinkedIn Portfolio GitHub

Technical Skills

Languages: Java (8/11/17/21), Go (Golang), HTML, CSS, JavaScript
Backend Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, Spring Data JPA, Apache Kafka
APIs & Documentation: REST, GraphQL, Swagger
Testing Tools: JUnit, Mockito
Databases & Storage: MySQL, Redis
Cloud Platforms: AWS, GCP
DevOps & Tools: Docker, Jenkins, Git, Maven, GitHub, GitLab, Postman, Splunk, JIRA
Engineering Practices: OOP, SOLID, Design Patterns, Data Structures & Algorithms, Microservices, System Design
AI & Developer Tools: GitHub Copilot, Claude, Cursor, Augment, AI Agents

Education

GuruNanak Institute of Technology

Aug 2019 — June 2023

B.Tech in Information Technology, DGPA-9.32

Kolkata, India

Experience

Persistent Systems

Sep 2025 – Present

Senior Software Engineer

Hyderabad, India

- Served as the team's first point of contact for technical issues, taking **full ownership** from understanding the problem to delivering the solution, and onboarded new joiners across tools, processes, domain knowledge, and technical concepts.
- Worked with scalable **distributed microservices** handling high-volume API traffic, contributing to query optimization and efficient inter-service communication to improve response times.
- Improved application resiliency by resolving production incidents using **Splunk** and **AI-assisted debugging tools**, accelerating root-cause analysis by **70%** and reducing mean downtime.

Persistent Systems

Sep 2023 – Sep 2025

Software Engineer

Pune, India

- Developed and maintained **RESTful APIs** using Spring Boot, Hibernate, and JPA, supporting enterprise-grade applications used by thousands of users.
- Implemented **role-based authentication and authorization** using Spring Security and JWT, securing access across multiple application services.
- Optimized **queries** by introducing indexing and rewriting N+1 queries, resulting in measurably faster API response times.

Projects

Intuit QuickBooks Application

Dec 2023 – Present

- Developed and maintained **RESTful and GraphQL APIs** for third-party integrations in QuickBooks, enabling data exchange between external service providers and the core enterprise platform.
- Debugged and resolved **integration issues** across third-party API contracts, identifying root causes using Splunk and reducing recurring failure rates by **60%**.
- Developed **unit and integration tests** using JUnit and Mockito, increasing test coverage by **60%** and significantly reducing production defects.
- Integrated test suites into scheduled **Jenkins pipelines** to ensure continuous API validation and minimize production failures.
- Participated in full **SDLC** workflows within an **Agile** team, using JIRA for sprint planning, task tracking, and delivery management.

BlogPost Application (GitHub)

Jan 2026 – Present

- Designed and built a multi-service backend (Blogging Platform + AdminTool) communicating via **Apache Kafka** for asynchronous event-driven processing.
- Implemented both **RESTful and GraphQL APIs** supporting pagination, trending/pinned posts, advanced search queries, and social features including like/dislike, follow/unfollow, and user blocking.
- Secured all endpoints with **JWT authentication and role-based authorization** (ADMIN / EDITOR / USER) using Spring Security.
- Containerized both services with **Docker and docker-compose**, enabling one-command local setup.
- Wrote **unit and integration tests** covering Controller, Service, and Repository layers using JUnit.

Certifications

AWS Certified Cloud Practitioner
AWS Certified AI Practitioner
GCP Associate Cloud Engineer
