Summary

Backend developer with around 3 years of experience building scalable microservices using Java 8+ and Spring Boot, with experience in Kafka-based event-driven systems.

Technical Skills

Languages: Java 8+ , Go (Golang), HTML, CSS, JavaScript

Backend Frameworks & Testing Tools: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST, GraphQL, JUnit, Mockito, Swagger, Apache Kafka

AI Tools & Cloud Platforms: AI Agents, Claude, GitHub Copilot, Augment, Cursor, AWS, GCP

Developer Tools: Git, Maven, GitHub, GitLab, Docker, Postman, Splunk, Jenkins, JIRA

Software Engineering Concepts: OOPS, DSA, SOLID, Microservices

Data Formats & Databases: SQL, Redis, XML, JSON

Operating Systems: Ubuntu, Windows, macOS

Education

GuruNanak Institute of Technology

B.Tech in Information Technology, DGPA-9.32

Aug 2019 — June 2023

Kolkata, India

Experience

Persistent Systems

Sep 2025 – Present

Senior Software Engineer

Hyderabad, India

- Designed and developed **scalable distributed microservices** handling **high-volume API traffic**, ensuring performance and reliability.
- Worked with **CI/CD pipelines** using Jenkins, gaining hands-on exposure to **build and deployment workflows**.
- Contributed to **system design**, including **API design**, database optimization, and **inter-service communication**.
- Developed **unit and integration tests** using JUnit and Mockito to enhance code quality.
- Improved application resiliency by resolving production issues using **Splunk** and **AI-assisted** debugging tools, reducing downtime and accelerating root-cause analysis.
- Containerized services using **Docker** for consistent deployments.

Persistent Systems

Sep 2023 – Sep 2025

Software Engineer

Pune, India

- Developed and maintained **RESTful APIs** using Spring Boot, Hibernate, and JPA for enterprise-grade applications.
- Implemented **secure authentication and authorization** using Spring Security and JWT, ensuring safe access to application services.
- Optimized **database queries and performance** for MySQL-based systems, improving response times and efficiency.
- Worked across the **full SDLC** in an Agile environment, contributing to design, development, testing, deployment, and production support.

Projects

Intuit QuickBooks Application | *SpringBoot, GraphQL, Splunk*

Dec 2023 – Present

- Worked on **QuickBooks**, enhancing and maintaining **scalable RESTful APIs** using Spring Boot, Hibernate, JPA, and GraphQL for efficient data handling.
- Resolved **production incidents** using Splunk, improved **application resiliency**, and ensured system stability.
- Improved **code quality** with unit and integration testing using JUnit and Mockito, increasing coverage and reducing defects.
- Automated workflows using **Cron jobs** and contributed across the **SDLC** in an Agile environment using JIRA.

BlogPost Application | *SpringBoot, JWT, Kafka, MySQL*

Oct 2023 – Nov 2023

- Developed a **blogging platform** supporting post creation, editing, and deletion with **like/dislike**, comments, and follow/unfollow features.
- Implemented **secure authentication and authorization** using JWT for user-specific actions.
- Integrated **Kafka** for asynchronous processing to improve system scalability and performance.

Certifications

AWS Certified Cloud Practitioner

AWS Certified AI Practitioner

GCP Associate Cloud Engineer
